We have added 100,000 new customers through this Faultless Five group in years past—the results secured from these sturdy, strong-rooted bushes have made most of these new buyers our staunch business friends. The only question has been "Why not offer other varieties at these lower prices, in such a group?" It's only possible by vast quantity production.

By years of planning, by production on a large scale of a longer list of finest fragrant varieties we are able to offer—for the first time this Fall—two complete Faultless Five groups, as follows:

GROUP C

Radiance. Carmine - pink. Lovely salmon tints. The ideal bedding rose.

Los Angeles. Flame pink and coral yellow. Graceful buds and flowers. Excellent for cutting.

Madam Butterfly. Pink and gold. Apricot blendings. Exquisite in bud and flower. Floriferous.

Sunburst. Yellow. Deepens to orange at center of flower. Exquisite type. Sweet scented.

You have wanted every one of these famous roses. But to pay 85c to \$1.25 for good 2-year-old field-grown bushes like these has possibly made you hesitate.

NOW is your chance. We have set aside less than a thousand of these groups for a test this Fall. While this limited supply lasts you can have these

5 sturdy 2 yr. Field-grown bushes (either group C or D) for only \$1.95

Postpaid

More than that! If you buy both Group C and D—10 roses in all for \$3.90—we include in your shipment, absolutely FREE, a fine 2-year field-grown bush of SOUV. DE CLAUDIUS PERNET.

Collins "Firmer" Spring Flowering Bulbs

give larger flowers and more of them, because the flower-bud (the part which counts, although you can't see it) is larger than is possible in the monster flabby bulbs grown in the lower-lying sections of Holland. Judged by weight, which proves solidity and firmness, Collins bulbs are superior. A comparison in your bulb garden will prove them the best investment you can make.
